## OBJECTIONS TO EVIDENCE

ense Maintains Relations After  
Girl Became 18 Years of Age  
Have no Bearing on CaseThe state concluded their portion  
of the evidence this afternoon about  
5 o'clock in the case of the state  
against Ora Cline, charged with en-  
saging the delinquency of  
Gladys Smith, daughter of Walter  
Smith.Elsie Smith, 15 year-old-daugh-  
ter and a sister of Gladys Smith,  
took the stand shortly before noon  
and continued for a time after din-  
ner. She stated that she saw Cline  
and Gladys on several  
occasions and on cross examination  
stated that it was probably more  
than 20 times.Clifford, brother of Gladys, testi-  
fied to almost the same facts as  
his sister. Both of them had been  
with Cline and Gladys Smith sev-  
eral times on automobile trips.Leslie Levi of Osgood told the  
jury that Cline and the Smith girl  
visited them in Osgood, and Cline  
produced Gladys as his wife.  
Thomas Smith of Shelbyville testi-  
fied that last fall the girl stayed at  
his house for a week, while she  
worked in a canning factory and  
that Cline visited her during the  
week, and she introduced him as  
"Tom Lane," and showed unusual at-  
tention to him.The defense started with their  
portion of the evidence, and it was  
objected that Gladys Smith would  
be placed on the stand late this af-  
ternoon or early in the morning.  
The evidence will protect Cline, it is  
said.The case will probably finish with  
evidence by tomorrow noon and will  
go to the jury late at night.Walter S. Smith, father of the  
girl whom the case involves,  
was on the witness stand yesterday  
afternoon as the first witness for the  
state, and it required practically all  
afternoon for the direct and cross  
examination.The defense delayed the trial  
roughly by objecting to the wit-  
ness.BURGLARS ENTER HOME  
OF REV. M. W. LYONSFrightened Away After Ran-  
sacking Desks of Former Pas-  
tor of St. Mary's Church Here

## OVERLOOK LIBERTY BONDS

Indianapolis, Ind., Mar. 23.—Bur-  
glars broke into the home of the  
Rev. M. W. Lyons, pastor of Our  
Lady of Lourdes church 5307 East  
Washington street early today, and  
apparently were getting ready to  
ransack the upstairs rooms when  
they were frightened away. Desks  
on the lower floor were ransacked,  
but nothing of value was taken.The burglars were discovered by  
Frances Gruse, housekeeper of the  
Rev. Father Lyons. Miss Gruse told  
the police that when she was  
awakened one of the men was stand-  
ing at the foot of her bed and the  
other was at the head of the stairs.  
She had a revolver and the other  
a flashlight. She screamed and they  
ran downstairs.Lieutenant Thomas and Sergeant  
Anderson, who investigated, said the  
burglars had removed a drawer,  
containing some change, from the  
Rev. Father Lyons' desk, but did not  
return the change. The drawer was  
found near a side door through  
which the burglars escaped. Several  
liberty bonds, which were in the  
desk, were overlooked by the police.The Rev. Father Lyons, until  
about a year ago, was pastor of  
St. Mary's Catholic church in  
Rushville and is well known in this  
city and vicinity.

## TEN MORE ARRESTED TODAY

Roundup of Miners and Operators  
Now Includes Twenty-Five

(By United Press.)

Terre Haute, Ind., Mar. 23.—  
Seventeen coal operators and eight  
miners were under arrest today on  
federal grand jury indictments  
charging them with conspiracy to  
limit production of coal in violation  
of the Lever act.Fifteen arrests were made yester-  
day and 10 more appeared today  
and submitted to arrests. Seven  
were operators and 3 were officials  
of the miners' union. It is said there  
will be more arrests. These arrests  
were outgrowths of indictments  
naming 125 miners and operators.CALLS CONFERENCE  
TO REVISE WAGESPresident Urges Miners and Op-  
erators Meet as Soon as Possible  
to Agree on Settlement.

## BASED ON COMMISSION REPORT

Executive Order Leaves Coal Dis-  
tribution Under Supervision of  
the GovernmentWashington, Mar. 23.—President  
Wilson today called miners and op-  
erators to a joint conference to re-  
vise the wage schedule on the basis  
recommended in the majority report  
of the coal commission.The wage advances recommended  
in the award are approximately 27  
per cent over those fixed in the last  
soft coal agreement.At the same time the president is-  
sued an executive order to take ef-  
fect April 1, abolishing all orders  
relative to coal prices issued prior to  
March 1 when the railroads were re-  
turned to their owners.The effect of this order is to leave  
coal distribution and control of coal  
exports under government super-  
vision but to knock out all price leg-  
islation issued under authority of the  
Lever act.The White House made public both  
the majority and minority report of  
the coal commission which adjourned  
recently after a long hearing on the  
bituminous coal wage controversy.The majority report was signed  
by the public and operators' rep-  
resentatives on the commission and the  
minority report by the miners' rep-  
resentatives.In his letter calling miners and  
operators to conference, Wilson urged  
they meet at the earliest date pos-  
sible and agree upon a settlement so  
coal consumers might have the in-  
formation to enable them to make  
contracts for the coming year.He forwarded to the miners and  
the operators both the majority and  
the minority report of the coal com-  
mission but said the report of the  
majority is none the less the report  
of the commission and is binding on  
such."I take it that neither party will  
raise any question and I am sure  
that any question cannot properly be  
raised as to the binding character of  
the award," the president declared.Wilson stated that the miners at  
the time they called off the strike  
last December agreed to accept the  
report of the coal commission. The  
operators also agreed to do this."I express regret that a unani-  
mous vote was not forthcoming," the  
president added.

## WARRANT FOR LUDENDORFF

Dispatch Says Former German  
Army Leader Has Disappeared

(By United Press.)

London, Mar. 23.—A warrant has  
been issued in Berlin for the arrest  
of General Ludendorff, an Exchange  
Telegraph dispatch said today. Lud-  
endorff has disappeared.Reports of new radical successes  
continue to come from Germany to-  
day. Forty persons have been kil-  
led and 64 wounded in fighting be-  
tween Spartacist and Ebert troops  
at Henningsdorf, according to re-  
ports from Berlin.TESTS SHOW CORN  
IS BADLY DISEASEDResults Given Out by County  
Agent's Office Reveal 26 Percent  
As Unfit For Seed

## 2,800 EARS ARE GIVEN TEST.

Twenty-one Percent Infected With  
Corn Root Rot and Remaining  
Five Percent is DeadResults of seed corn tests given  
out by the county agent's office to-  
day indicate that much of the corn  
in Rush county is infected with the  
corn root rot disease. Out of a total  
of 2,800 ears just taken off test,  
583 proved infected. This is approx-  
imately 21 percent. One hundred and  
fourteen ears, or 5 per cent, were  
found to be dead, making a total of  
about 26 percent of the corn tested  
that had to be discarded on account  
of being unfit for seed.This was worn brought in by 5 dif-  
ferent farmers and it was found that  
the five lots varied as to the amount  
of disease found and the number of  
dead ears present. The best lot tested  
2 percent dead ears and 12 per-  
cent diseased, while the largest per-  
cent of infected seed found in any  
lot was 49 percent.The results of the tests made  
show that there is a great need for  
careful testing of seed in the county.  
Farmers report an increasing  
amount of this disease showing up  
in their corn fields in the last few  
years, producing a greater percent  
of barren and down stalks each  
year. Some farmers report the trouble  
so serious that much of their  
corn gets only a few inches in height  
before it turns yellow and dies.The testing plant in use at the  
county agent's office in carrying out  
these tests was equipped by the  
Rush County Farmers' Association  
for the purpose of testing out a small  
lot of seed for as many individual  
farmers as possible before planting  
time in order to find out just how  
seriously the corn is infected and to  
demonstrate the method by which  
the diseased seed may be detected  
and eliminated. The plant attracted  
hundreds of interested farmers last  
Thursday during the all day "farm-  
ers' meeting."The form of tester being used is  
the modified rag doll, which is the  
same as the old fashioned rag doll  
except that it has a strip of heavy

## STRIKERS WARNED BY ALLIES

(By United Press.)

Berlin, Mar. 23.—Karl Legien,  
head of the Berlin labor union, has  
asked for the resignation of the en-  
tire cabinet of President Ebert,  
dispatches reported today.Leading workers have decided to  
continue the general strike. Allied  
reports here today warned the in-  
dependent socialists that they can-  
not hope to receive aid for neces-  
sities if they persist in strikes and  
Germany's ruin.The food supply is limited and the  
meat supply is sufficient to last only  
until mid-April, other dispatches re-  
ported.It was said that no aid may be  
expected from America until they  
assist in restoring the Ebert gov-  
ernment instead of the downfall of  
it.The general strike cannot last  
more than a few days longer the  
government predicted. Radicals,  
however, declared the workers will  
remain out until all members of the  
Ebert administration have resigned.

as secretary of state after the of-  
ficial notification of his confirma-  
tion by the senate was received.NO ACTION YET ON  
DEMAREE MOTIONBoaz and Wife Clara, Members of  
Alleged Gang of Robbers, Each  
Ask For Separate Trial.

## ALSO FILE MOTIONS TO QUASH

Gregg Alyea Takes Similar Action in  
Circuit Court—Trial May Not  
Start on Schedule.Boaz Demaree and his wife, Clara  
Demaree, against whom are charges  
jointly with five other defendants, of  
conspiracy, have each made a sepa-  
rate oral request for separate trials,  
and each has filed a motion to  
quash. Gregg Alyea, another de-  
fendant, whose home also is in  
Greensburg, has also filed through  
his attorney, a motion to quash the  
indictment with reference to him.The case of the Demaree gang, in-  
cluding those mentioned above, is  
scheduled for trial the latter part of  
this week, with Jesse Demaree being  
tried first on Thursday. His charge  
is that of burglary, the affidavit  
mentioning August 22, 1919, as the  
time of entering the Dr. D. H. Dean  
residence in this city.The trial of the remaining defend-  
ants charged with conspiracy, is  
scheduled to begin on the day fol-  
lowing the Jesse Demaree trial. It  
could not be ascertained just why  
the two Demarees requested separate  
trials, and then filed a motion to  
quash.Judge Sparks has not taken any  
action in either of the requests. The  
Cline case now being tried before  
Special Judge Miller of Franklin in  
circuit court, may overrun into the  
Demaree trial, in which case the  
Demaree trial, will be held later.It was rumored that the Demaree  
case would be held anyway, as  
Judge Sparks could hold court in  
another court room in the court  
house, but such could not be the  
case as both cases are state cases,  
requiring the attention of Prosecutor  
Stevens, and it will be necessary for  
him to finish the Cline case before  
entering upon the Demaree case.In the Demaree case many promi-  
nent lawyers will be involved, both  
for the state and the defense. It is  
said that each of the defendants has  
retained their own legal counsel and  
the state, with Prosecutor Stevens,  
will be assisted by Tremm and Tur-  
ner, prominent Greensburg lawyers.RICHMOND OFFICERS  
NOTIFY POLICE HEREBelieved Check Forger Caught There  
Was One Who Operated in Rush-  
ville Last Friday

## NOT BELIEVED SAME MAN

The Richmond police arrested a  
man and woman last night on a  
charge of check forging and vag-  
rancy, and immediately upon arrest-  
ing them, called the local police,  
thinking that they had caught the  
fountain pen salesman and his wife  
who passed bogus checks on three  
Rushville merchants last week.The description given, by the  
Richmond police did not fit the de-  
scription of the two that were here.  
The Richmond officers stated that  
the two arrested evidently were  
check raisers, instead of forgers, as  
check raisers, instead of forgers, as  
plate outfit used by professionals in  
raising checks.It will be recalled that a fountain  
pen salesman was here the latter  
part of last week, securing a display  
space in the Pitman and Wilson  
drug store, and on Saturday when  
he left he issued three checks,  
amounting in all to about \$60, drawn  
upon a bank in Evansville, which  
was found not to be in existence.  
When the salesman and his wife left  
they stated that were going to  
Connersville, but a search in that  
city, failed to locate them.

## BOY FALLS OFF BICYCLE

Herbert Sorrell First Thought to be  
Fatally InjuredHerbert Sorrell, son of Mr. and  
Mrs. Charles Sorrell, was rendered  
unconscious yesterday afternoon for  
about an hour, when he fell from  
his bicycle in front of the Ed Kelley  
residence, 427 West First street.  
The young boy was riding his bi-  
cycle without the use of his hands  
on the handlebars, and he obtained  
a severe fall. For a time it was  
thought that he had suffered a  
broken neck, but physicians revived  
him, and found that there were no  
bones broken, but he suffered only  
a severe shock, which rendered him  
unconscious. He was able to be out  
today.NOT DEFENSE OF  
THE NEW TAX LAWCharles A. Frazee Merely Made  
Figures on Distribution to  
Show Where Money Goes

## NOT A REPLY TO G. W. LOONEY

Not His Intention to Deceive Any-  
one, He Says, Nor to Defend  
The Horizontal IncreaseCharles A. Frazee, county treas-  
urer, today issued a statement, in  
which he declared that he had no  
intention, when he prepared the fig-  
ures on the distribution of taxes,  
of attempting to defend or criticize  
the new tax law; nor did he have  
any thought of answering George  
W. Looney, Jr., but that he made  
the figures for the information of  
the taxpayers of the county. Fur-  
thermore, Mr. Frazee said that since  
he had only this one aim in view, he  
would have nothing further to say  
in regard to the matter. His state-  
ment follows:"The figures I made in regard to  
the distribution of taxes paid last  
year and this in Rush County were  
made for the reason that I thought  
the taxpayer would be interested in  
knowing where their money went  
last year and was going this year.I did not attempt to defend or  
criticize the new tax law or its op-  
eration; furthermore I said nothing  
about the merits or demerits of the  
new highway law nor the methods  
employed by the legislature in pass-  
ing any law.I had no intention of replying to  
anything that George W. Looney,  
Jr., has said or written in your pa-  
per on the subject of taxes, nor did  
I have him in mind, when I pre-  
pared the figures, which I think in  
the main are correct, and speak for  
themselves.It was not my intention to try  
and deceive any one in deducting  
the new state highway tax from the  
other state tax. I separated it for  
the reason it was a new tax, and in-  
cluded it in the increase to the  
state tax.I have never thought nor do I  
think now that any property whet-  
her real or personal should be as-  
sessed at more than its true value.I did not nor do I defend a hori-  
zontal increase. It is my opinion  
there would have been less criticism  
had there been none made, although  
had the horizontal increase not been  
added the rate in each taxing unit  
would have been much higher to  
raise the same amount of money.  
The following is what the rate would  
have been:Rushville city \$2.194, Carthage  
2.41, Glenwood \$1.97, Ripley \$1.214,  
Posey \$1.25, Walker \$1.353, Orange  
\$1.37, Anderson \$1.27, Rushville  
township \$1.41, Jackson \$1.161,  
Center \$1.06, Washington 954c, Un-  
ion \$1.13, Noble \$1.30, Richland  
\$1.09.I had a good illustration one day  
last week in a man paying his tax  
in Rushville city on a property he  
bought last year and was paying  
his first tax on it. When I gave him  
his receipt which was for \$33.80 for  
the whole year's tax, he did not say  
a word until he saw that the prop-  
erty was valued at \$2,000, which  
he said was too high; that he would  
take \$1,800 for it, and I am sure

## TWO DAYS ARE ASSIGNED.

This Will Give All Voters a Chance  
in Their Own Wards—Women  
Must Also RegisterSince the enactment of the first  
registration law in Indiana which  
became effective in 1912, the law  
has been changed or amended so  
much that the average voter some-  
times becomes bewildered and does  
not know when or how often he must  
register to be entitled to cast his  
ballot.Two years ago all voters were ob-  
ligated to go to the court house to  
register or send their application to  
the county registration board. This  
method was very unpopular and  
many voters would not take the  
time to register. It was also expen-  
sive as four members of the regis-  
tration board were paid \$5 per day  
for six months' service.The general assembly of 1919 re-  
pealed the old registration law and  
enacted a new law of which the fol-  
lowing is a brief synopsis.A registration board composed of  
one inspector and two clerks will be  
appointed by the county commis-  
sioners; the clerks from the two pol-  
itical parties that cast the highest  
and next highest vote at the last  
election. There will be one board  
for each precinct in the county and  
wherever possible the rooms for re-  
gistration will be the same as those  
used on election day.There will be two days for regis-  
tration, Saturday the 30th day be-  
fore the election, and Monday, the  
29th day before the election. This  
will give all voters who move from  
one precinct to another an oppor-  
tunity to register.All of the registration boards will  
be in session from 1 o'clock p. m.  
until 9 o'clock p. m. on each regis-  
tration day and after the time for  
receiving applications for registra-  
tion is past the board will remain in  
session until all of the work is com-  
pleted. The names of male and fe-  
male voters will be recorded on sepa-  
rate pages on the registration re-  
cord.Before a voter can be registered  
he must fill out and sign an appli-  
cation.

MOST VIVID SEEN HEREBrilliant Display of "Northern  
Lights" Monday Night Attracts  
Attention of Many

## LAST SEEN IN FALL OF 1919

The most brilliant display of the  
Aurora Borealis within the memory  
of Rush county people was wit-  
nessed last night, the most vivid dis-  
play falling between 9 and 9:15  
o'clock, although some persons de-  
clared they saw a faint manifesta-  
tion of the phenomena an hour ear-  
lier. The last time the aurora was  
visible here was in October last year  
and in the spring of 1918.It appeared last night as a great  
fan-shaped illumination in the north,  
with an almost incessant play of iri-  
descent lights. People who happened  
to be out of doors at the time did not  
at first realize what was taking  
place, and when it dawned upon  
them, they called neighbors and  
friends to witness the phenomena.An Indianapolis man, who is an  
authority on the subject, according to  
the Indianapolis Star, says that al-  
though March is one of the months  
during which the earth passes  
through the sun spot belt, such an  
unusual display as was witnessed  
last night must have been caused by  
a great disturbance on the sun.  
Since it takes nearly two days for  
the earth to be affected, the distur-  
bance must have taken place about  
March 21. Telephone wires were put  
down and telephone service was  
not impaired.

IT does us good to see the family spirit which the Hupmobile seems to generate everywhere.

Most motor cars do that in some measure; but, if you will notice, the Hupmobile is essentially a family car.

That is due, we suppose, to the fact that it is so easy to drive; so very, very seldom gets out of tune; costs so little to maintain; and keeps on plugging away with such everlasting faithfulness.

**NOT DEFENSE OF THE NEW TAX LAW**

Continued from Page One

he told the truth.

I looked up for him what the tax was on the same property last year and found that it was valued at \$1,000 and the previous owner paid \$64, and had paid on that valuation for the past four years. The point I am attempting to make is that more than likely there never would have been a complaint made if he had paid as much as \$64 on a \$1600 valuation.

I do contend that expenses make taxes and regardless of who or what makes the expense, assessments are only made to determine the proportionate share of taxes or expense that should be paid by each piece of property and if any person is assessed out of proportion to his neighbor it is because the township assessor has erred in his judgment, the horizontal increase only makes this fact more apparent.

Since my sole aim was to inform the taxpayers as to where their money went, I will have nothing further to say in regard to the matter, now that I have explained the purpose for which the figures were made public.

**WORKS HARD TO AVERT FLU EPIDEMIC**

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membranes of the throat and nose is raw, sore and tender and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop a discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Pour three-quarters of an ounce of Mentholized Arcine into a pill bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold, catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arcine in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

# No More Getting Up Nights!

Bladder Weakness Quickly Corrected by Recent Scientific Discovery For Old and Young

50 Cent Package Free

What a wonderful comfort to sleep all night and not get up at least once, and maybe six or eight times, every night because of bladder weakness. Have you forgotten what the restfulness and luxury of an unbroken night of untroubled sleep is like?

"Oh-hi-hum! It's Tough to Have to Get Up This Way Every Night"

Among the principal causes of this trouble is chronic enlargement of the prostate gland and bladder irritation and of these and of the scientific discovery upon which Kellogg's Brown Tablets are based, a noted medical authority says: "A symptomatic cure is usually achieved." The frequent impulses to urinate and the recurring desire at night cease. Successes with this salt have been had in men of ninety years."

Every man young and old should try this wonderful treatment. It works upon the bladder to correct the faults that are causing a host of men days and nights of untold misery.

Send coupon today, with six cents in stamps to help pay postage and packing for a free 50c trial box of Kellogg's Brown Tablets, to Frank J. Kellogg Co., 2489 Hoffmaster Block, Battle Creek, Mich.

SPRING bids the fashion world revel in the radiancy of its new modes

## THE NEW SUITS

The salient feature of the Suit Styles for Spring is the length of the jacket with the shorter length dominant. Our displays include several types which introduce coats with belts and ripple peplums, or jackets of the Eton and pony types with trimming of close-set rows of buttons on sleeves and at the sides, or with braid and embroidery effectively used. Several models show vests of brocade or novelty silks. Suit skirts are somewhat shorter and can be either pleated or plain. Poirer twill, tricotine, serge and gabardine are the principal fabrics in rich dark colorings.

\$29.50 to \$135.00

## THE NEW COATS

Our displays include interesting interpretations of both the utility coats and sport coats of shorter length, with a plentiful showing of belted models, in both types. Many of the luxurious cloth fabrics of winter have been reproduced in lighter weights for Spring, such as silvertone, velour and novelty wool fabrics. Some very exclusive styles have made their appearance in Tricotine, Serge, Poirer Twill and Polo Cloth. Indeed, the latest whimsies of Fashion are adapted in these garments. All show an excellence in tailoring.

\$18.00 to \$95.00

## THE NEW DRESSES

Every Spring occasion, every individual taste and requirement are happily remembered in this assemblage of new frocks. The straight line type is still popular with the addition this season of the more fitted lines as shown in several of our afternoon and evening dresses. The fuller hip line is noted in many delightful variations by the clever use of pleatings and rufflings, or by the effective draping of materials. Waists are fitted and skirts are shorter and fuller—with much thought given to individuality in styles. Several frocks are shown in the ever popular Taffeta, Crepe,orgette and Satins, richly embroidered.

## BANNER TORN OFF HOUSE

G. P. McCarty Reports Work of Night Raiders to the Police

G. P. McCarty reported to the police this morning about someone who had torn a canvas banner posted on the house now being remodeled by Austin Frazee in North Main street. The banner was placed on the side of the house and was quite costly, and someone during the night tore it to pieces. Mr. McCarty stated that he had some suspicion as to the guilty person, who will be watched in the future. The banner was 6 by 9 feet.

The paper also prevents the roots from matting up and so makes the tests much easier to read. The dolls are placed in double boxes to sprout. The box is placed inside the other and wet sawdust is packed in between to act as an insulating layer to conserve moisture and heat. The tests are moistened twice daily with warm water and covered with damp burlap to keep the moisture in. Seven days are required to sprout the dolls sufficiently to enable one to detect the disease.

## Men's Rights.

Men's rights are a great deal of trouble to them. They assert them, and get them, and then they don't know what to do with them. A man's rights, half of them, are meant to give away. . . . The benediction of your rights is, they are your benevolences. You can yield them, give them away. And the law of social unity is this law of assertion of a man's individuality, and the use of that individuality as a benevolence for those that are round about him.—Henry Ward Beecher.

## Has a Double Mission

One way of reducing the cost of living is open to every man, woman, and child who can get the use of an idle plot of ground. That way lies through the planting and cultivation of a home garden—a Thrift Garden. War gardens played their part in the great mobilization of resources in war time—Thrift Gardens now have their own big job in helping households to feed themselves.

The reasons for Thrift Gardens are many and various. The same reasons that existed last year and the year before still are present. Thrift Gardens will produce food where nothing otherwise would be produced, they will reduce family food bills, they will return abundantly in proportion to the time and effort devoted to them. But added to these reasons is another one peculiar to this year.

Reports to the United States department of agriculture indicate that the plantings by commercial vegetable gardeners will be materially reduced this year, because the commercial gardeners see no way of obtaining enough labor to conduct their usual operations. The commercial gardeners claim that they have paid high wages in endeavors to keep up production, but now have reached the point where the returns will not justify the continuance of this expense. At least, that is the report reaching the department of agriculture from seed merchants, whose operations at this season are regarded as a good indication of what conditions will be a month or two from now.

If the reduction of commercial gardening becomes a fact, the obvious result will be fewer vegetables and higher prices. The logical remedy lies partly in home gardens. This is a remedy, moreover, that will work no harm even if the commercial acreage should be up to normal, as any surplus of fresh vegetables may be saved by canning, drying, and other means of conservation and the surplus kept so that it will be useful next fall and winter.

Thousands of families learned the value of home gardens in war time. United States department of agriculture specialists believe it essential that these families' interest be maintained and that other thousands be added to the home-food producers.

## Meeting a Great Need

The Farmers Day celebration here last week made more apparent than ever the great lack in this community. The need of a centrally located place for public gatherings has been felt in Rushville for years, but nothing in the way of meeting the need has ever been done. The opportunity for doing so has arrived, and if advantage is not taken of it, the opportunity may not come again soon.

The local post of the American Legion proposes to conduct a campaign for a community house to be built in Rushville as a war memorial under the terms of a law enacted by the legislature of 1919. This project will serve a double mission and will give to Rush county an institution that will not only commemorate the lives of those who died for their country during the war, but will perform a service of unquestioned worth to the whole community.

It is well that all the people of Rush county should give this matter some thought. We have seen a wonderful demonstration of community spirit here in recent days and there is no reason why everything should not be done to foster it and cause it to grow and make this county a better place in which to live.

Other communities have found a building, such as is contemplated for this county of inestimable value and once we have one, there will be

## Siam-se Superstition.

At the birth of a child, in Siam, a cord that has been blessed by the priests is tied around the outside of the house, and three balls of rice are thrown in "lucky directions" by three old women, who are always present at such a time and whose business it is to solicit for the little one the patronage and protection of sundry guardian angels.

INDIGESTION  
Caused by  
Acid-Stomach

Millions of people—in fact about 9 out of 10 suffer more or less from indigestion, acute or chronic. Nearly every case is caused by Acid-Stomach.

There are other stomach disorders which also are caused by Acid-Stomach—belching, heartburn, bloating after eating, food repeating, sour, gassy stomach. There are many ailments which, while they do not cause much distress to the stomach itself, are nevertheless traceable to an acid stomach. Among these are nervousness, biliousness, constipation, rheumatism, impoverished blood, weakness, insomnia, melancholia and a long train of physical and mental miseries that keep the victims in miserable health year after year.

The right thing to do is to attack these ailments at their source—get rid of the acid-stomach. A wonderful modern remedy called EATONIC now makes it easy to do this.

One of hundreds of thousands of grateful users of EATONIC writes: "I have been troubled with indigestion for about nine years and have spent quite a sum for medicine, but without relief. After using EATONIC for a few days the gas and pain in my bowels disappeared. EATONIC is just the remedy I needed."

We have thousands of letters telling of these wonderful cures. Try EATONIC and you too, will be just as enthusiastic in its praise. Your druggist has EATONIC. Get a big 50c box from him today. He will refund your money if you are not satisfied.

## Our Daily Laugh

New and Bright Yarns That Will Tickle You and Will Be Relished by Your Friends When You Repeat Them.

Two New York sportsmen went big game hunting in the Jackson Hole country, south of Yellowstone Park last fall. Rather, one was a sportsman; the other a tenderfoot. After must staging, horsebacking and hiking they reached a small ranch and sought quarters for the night. They were "put up" in the bunk house. As customary the beds were made by erecting a bedframe in each corner of the room, the bottom being of rough-pine boards. There was no mattress. In spite of being dead tired from unusual exercise in reaching this haven of rest neither of the two hunters rested well, curled up in their blankets on the hard boards. At break of dawn the tenderfoot began grumbling to his friend about the terrible beds.

"What do you want?" was the reply. "Haven't you always heard of solid comfort? Well, you had it all night or I miss my guess."

His Place at St. Paul's M. E. Revival Will be Taken by the Rev. George S. Henninger

## WILL BE HIGH SCHOOL NIGHT

The third and final week of the revival meetings at St. Paul's Methodist Church got under way last evening when the Rev. J. W. McFall of Connorsville preached a most excellent sermon from the text, "How Shall We Escape If We Neglect So Great Salvation." In an earnest forceful manner the preacher pointed out that the text applies not alone to the unsaved who have never yet confessed Christ, but to the church members as well who often prove neglectful of their privileges and opportunities in the work of leading others to a knowledge of salvation in Jesus Christ. The sermon gripped the hearts of all present and an impressive altar service followed in which a large number took part. A beautiful solo by Mrs. Mert Wolcott was a feature of the song service.

Tonight will be young people's night at the church. S. L. Shurte of Indianapolis who was expected to give an illustrated talk at this service is unavoidably detained in the city, and his place will be taken by the Rev. George S. Henninger who preached to such large audiences each evening during the first two weeks of the revival. This will be a welcome announcement to his many friends in Rushville and his sermon to the young people tonight will doubtless attract a large hearing. Space will be reserved in the center section of the church for the senior and junior high school pupils. Special music is being arranged for this service. The Rev. Mr. Henninger will remain in the city for the Wednesday evening service when he will again be the preacher of the evening. The public is most cordially invited to the meetings each evening throughout the week.

IN TOUR OF GLEE CLUB

Monmouth College Girls' Organization Appears Before Capacity House at U. P. Church

## EVERY NUMBER IS ENCORED

The Monmouth college girls' glee club furnished a delightful entertainment last night when they presented a program before a capacity house at the First United Presbyterian church. The girls held the closest attention of the large audience for the two hours that they rendered their program in and each number was encored and re-encored.

The personnel of the glee club consisted of 24 voices, a pianist and a reader. Accompanying the chorus was a manager, director and Mrs. McMichael, wife of the president of the college.

The special numbers were loudly applauded, especially the reader, Miss Alice Maxwell, and the pianist, Miss Evelyn Fort. The program was divided into two parts, the specialty number in the first part being a negro group song, in which the girls were in black face and in the last half the number was a Japanese chorus which was also given in costume.

Each number in which the entire chorus took part was exceedingly well given, and required several additional pieces before the audience would permit them to continue with their program. The manager announced that the audience here was the largest that has greeted the glee club during their present tour.

Birds Which Pay  
Way in the County

The state department of conservation has prepared a series of articles on insect-eating birds which combat voracious insect pests. The articles are written for the benefit of farmers and are protected and allowed to carry on their valuable work.

The rose-breasted grosbeak, ranges from Western Ecuador and the Province of Santa Maria, in Columbia, to Labrador and Saskatchewan, and from the Atlantic ocean to the west of the Great Plains. They breed in the Carolinas and come to Indiana early in May, returning southward in September and October.

The adult male is about eight inches long and has a wing extent of about twelve inches. Chin, neck and upper parts are black; wings pointed and black with large patch of white on basal portion of primaries and white spots at the tips. The lower part of the breast, middle of belly and lining of wings are of a full light carmine or rose color. The female is very unlike the male, is of a light yellowish flaxen color, streaked with dark olive, pale flaxen, and white. The lining of the wings are pale yellow. This bird is not a common one in Indiana. It feeds ravenously on potato bugs and in Colorado is known to have cleared fields of this voracious insect pest. Farmers would do well to encourage propagation of the rose-breasted grosbeak.

## Can Catarrh Be Cured?

Does It Cause Tuberculosis, Pneumonia, Influenza to be Contracted?

Free Examination and Lecture by Catarrh Specialist.

The medical director of the Indiana Catarrh Institute, 1436 North Illinois St., Indianapolis, Ind., is going to be in this city for one day. He will give privately, a free examination and consultation to everybody that goes to see him, as well as a very interesting and instructive lecture on just what catarrh is; what it will do to a person afflicted with it and give proof that catarrh has been cured and is now being cured every day right in this city.

This expert specialist has spent 17 years in the special study and treatment of chronic Catarrh, has seen thousands of cases and positively pays no attention to any other disease than catarrh. He is at the head of a large institution in Indianapolis, which is devoted exclusively to the treatment of this one disease. He has an entirely new and different system of successfully treating this disease, which he will be glad to demonstrate to all who call on him.

This pleasant and successful system can be used at home, at very small expense, without any loss of time or inconvenience. It works successfully on the worst old cases of catarrh, throat and bronchial tubes, chronic cough and bronchitis, dropping mucus in the throat, pains in the chest, shortness of breath, clogged up head and nostrils, head noises and catarrhal deafness, hawking and spitting frequently, severe colds, asthma, hay fever, chronic catarrh of the stomach and bowels and all old "run down" conditions due to catarrh.

Chronic Catarrh is often the forerunner of Tuberculosis, Influenza, Pneumonia and other fatal diseases.

Stop wasting time and money on sprays, douches, salves, appliances and the methods of ordinary doctors. Go and consult a real specialist on this disease. It does not put you under obligation in any way. He is glad to advise you freely.

He will be at the Hotel Scanlan, on Wednesday, March 24th, from 9 a. m. to 8 p. m. (and every twenty-eight days thereafter.)

If it is impossible for you to call on him in person, you should write to find out all about this new system that is curing people. Just address a card or letter to the Indiana Catarrh Institute, 1436 North Illinois St., Indianapolis, Ind.—(Adv.)

# BALL CLUB BACKERS MEET

Another Session of Fans to be Held  
Tonight at 7:30 O'clock

The backers of the new baseball  
club which is planned for Rushville  
this season, have called a meeting  
tonight of all those interested. The  
meeting will be held promptly at  
7:30 in the court house, and all  
business men, ball players and oth-  
ers are requested to be present. At  
a meeting held last week, it was de-  
cided to form a stock company and  
finance a club here composed whol-  
ly of local talent. At that time offi-  
cers were elected, and the meeting  
tonight will be to start the sale of  
stock and hear a report on the  
committees appointed at the pre-  
vious meeting. Walter F. Easley ac-  
cepted the position of manager for  
the team and will begin bookings at  
once, securing only the best inde-  
pendent teams in Indiana for Sun-  
day and holiday games.

# BOARD TRIES TO CLEAR CONFUSION

Tax Commission in Statement Re-  
ceived Here Says Household  
Schedule May be Omitted

## PREPARED FOR A PURPOSE

Aim Was to Aid Assessor and Pro-  
perty Owner to Arrive at a  
True Cash Value

To clear the confusion in the  
minds of many persons regarding  
the personal property assessment  
sheet this year, the state board of  
tax commissioners has sent out a  
statement, which has been received  
by Earl Priest, county assessor,  
outlining the purpose of placing the  
household list on the sheet this  
year.

A member of the board last week  
gave out a statement in which he  
made the confusion even greater  
when he said it was not necessary  
for taxpayers to list each article of  
household effects as the list appar-  
ently intended. The assessors  
here had previously been instructed  
to compel property owners to fol-  
low the household list closely in  
filling out their assessment sheets.

The commissioners, however, in  
their latest statement on the sub-  
ject, say the personal property sched-  
ule need not be filled out unless  
the property owner and the assessor  
fail to reach an understanding re-  
garding the value of such property.  
They hold that the household goods  
schedule was prepared to aid the as-  
sessor in arriving at a true cash  
value and may be omitted if that  
value can be obtained in any other  
way. The statement is as follows:

"Some misapprehension has arisen  
in regard to the use of the supple-  
mental list of household goods and  
farm implements on the fourth page  
of the personal property schedule,"  
reads the statement. "All assessing  
officers are instructed that these  
lists are intended to assist the tax-  
payers and the assessing officers to  
arrive at the value of classes of  
property that previously have been  
much neglected—especially when  
values have been considerable."

"Heretofore in many sections" of  
the state separate supplemental lists  
on cards have been used, but there  
has been no uniformity in same. It  
is provided this year that all shall  
deal with the subject alike to the  
end that there shall be equality of  
assessment with the minimum of er-  
ror, and that these items in the  
supplementary lists shall be used  
as a means to an end, and that  
these classes of property shall be  
returned as all other classes of prop-  
erty, at their true cash value.

"Assessing officers are required to

If the assessor agrees with the

### Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

### Style Plus Comfort

Here is a new idea. The ball of this shoe is wide, built on the same Army Lines as an Army Shoe. The toe swings in to a semi-English point, giving the shoe a narrow appearance, despite its width at the ball.

## CHRONIC and FEMALE DISEASES

**CANLAN HOTEL, RUSHVILLE, INDIANA**  
**Two Days and a Half**  
**Thursday Afternoon, Friday and Saturday**  
**March 25 — 26 — 27**  
**Office Hours—9 A. M. to 9 P. M.**

**I am a Registered Physician in the State of Indiana,**  
**as required by the State Laws.**

### EXAMINATION FREE

It will cost you nothing to come in for examination and advice. You will use your own judgment as to what you think is beneficial for your good.

### WHAT I TREAT

Chronic Diseases of the Ear, Eye, Nose, Throat, Bronchial Tubes, Lungs, Indigestion, Dyspepsia, Constipation, Liver Diseases and Gallstones, Stomach and Bowels, Bladder and Urinary Troubles, Neuralgia, Rheumatism, Skin Disorders, Headache, Old Sores, Dropsy, Ulcers, Nervous Diseases, Blood Poison and Female Diseases.

### DON'T SUFFER FROM PILES

My internal method for the treatment and permanent relief of piles is a correct one. No matter whether your case is of long standing or recent development, whether it is chronic or acute, whether it is occasional or permanent, you will find this your prompt attention.

### EYE DISEASE.

If your eyes are work-strained or red; if your vision is dim or blurry; if it bothers you to read; if your eyes burn or itch or ache; if you wear glasses; if your eyes water; if the light hurts your eyes—try not find out what the trouble is and be cured?

### MOST EVERY HUMAN ILLNESS IS DUE TO BLOOD IMPURITIES

You cannot over-estimate the importance of keeping the blood free from impurities. When you realize that the heart is constantly pumping this blood to all parts of the body, you can readily see that any impurity in the blood will cause serious complications.

Any slight disorder or impurities a source of danger as every vital organ of the body depends upon the blood supply to properly perform its functions.

Many painful and dangerous diseases are the direct result of a bad condition of the blood. Among the most serious are Rheumatism, with its torturing pains; Catarrh, often a forerunner of dread consumption; Eczema, Tetter, Erysipelas and other skin diseases; Malaria, which makes the strongest men feeble; and many other diseases are the direct result of impure blood.

### CATARRHAL DEAFNESS AND HEAD NOISES

If you have catarrh, catarrhal deafness, or head noises caused by catarrh, or if phlegm drops in your throat and has caused catarrh of the stomach or bowels, you will be glad to know that these distressing symptoms may be entirely overcome by proper blood treatment.

# TENANT'S STRIKE SEEMS PROBABLE

**Threat to Strike Against Exorbitant Rents Has Been Made in Scores of Communities**

## NEW YORK'S FIGHT STARTED

**Central Federated Union to Introduce Bill Protecting the Rights of Tenants**

New York, Mar. 23—The rent strike may be the tenants' chief weapon against profiteering landlords in New York.

Threat to strike against exorbitant rents has been made in scores of communities following a report of the plan in Jersey City and Newark, N. J., where, as has been the case in practically every city in the country, unheard of prices have been charged for rooms, flats, apartments and houses in the midst of the most acute shortage of housing facilities the nation has ever faced.

Data gathered by the United Press indicates underlying causes for high rentals, as given by responsible real estate dealers, are:

1. Unprecedented slump in building, accentuated by shortage of labor and building material and aided by increased prices for both.

2. Flow of population toward the city, in anticipation of high wages and an easier living. Thousands of persons drawn to industrial centers during the war have stayed in the cities, going into other lines of work.

3. The appearance of thousands of speculators, seeing chances to prey on the many homeseekers, and their renting of all available apartments, outfitting them with cheap furnishings and then re-renting at enormous prices.

New York's fight against rent profiteering has already been started by joint attacks by Mayor Hylan and the Central Federated Union. The mayor announced he will confer with Commissioner James F. Gannon of Jersey City, relative to Gannon's method of handling the rent strike.

The Central Federated Union through Secretary Ernest Bohm, has decided to ask introduction into the legislature of a bill "protecting the rights of tenants and making eviction impossible where eviction is threatened by refusal to pay exorbitant rents.

It was estimated here that rents had increased on an average of from 100 to 250 percent. Simple and unpretentious quarters in poorer sections of the city, where not even all the ordinary conveniences were not afforded, have been charged for at from \$20 to \$35 a month, the same flat bringing from \$10 to \$18 for four years ago.

Rents in more desirable sections of the city have soared from \$3 and \$60 for the average 4-room apartment with the usual conveniences, to \$100 to \$250 a month. Electricity and gas are invariably charged for extra.

City officials recently estimated there is at present a shortage of 20,000 dwellings, 50,000 apartments and 10,000 in Greater New York. Erection of this number, or a substantial portion of it, they asserted, would be the only remedy for high rentals in the city.

## STATE LIBRARIANS ASK FOR MORE PAY

**Association of Librarians and Others Will Take Steps to Seek More Wages, it is Announced.**

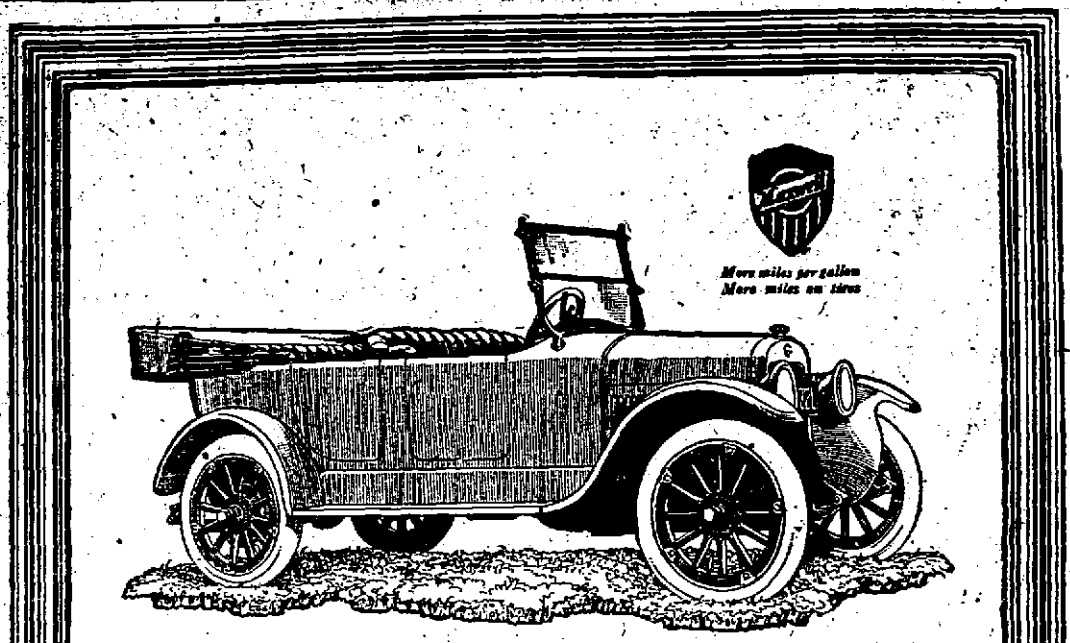

### ANNUAL MEETING IN NOV.

Indianapolis, Ind., Mar. 23—Librarians throughout the state today were preparing for a salary drive. The Indiana Library Trustees association are at the helm and will take an active part in bringing pressure to bear on the city governing bodies to raise the librarian's salary.

According to the Indiana public library commission here, much difficulty is being experienced in obtaining qualified library employees in many cities of the state. Salaries paid the librarians in most cases are below the standard of those paid school teachers although the qualifications are similar. The drive for the teachers' increase has given impetus to the librarians' campaign.

The annual meeting of the two directing bodies will be held in Indianapolis November 10 and 12.

# Steels Make the Maxwell Thrifty

**SEVERAL** million dollars have been expended to provide more elegance, more refinement, more comfort to the current Maxwells. It is in ever so many ways a superior appearing car; superior, too, in action.

But not a single pound of weight has been added to burden the work of its great engine!

Therefore, despite the many processes of improvement, it doesn't cost a penny more to run a Maxwell than it did a year ago.

The underlying principle of every Maxwell is to give economic transportation.

This means light weight. But it means strong steels, as well.

It is no easy trick to provide both lightness and strength in metal. Such a rare combination means high cost steels.

And you would find, if you compared a Maxwell with any car, that it equaled that car pound for pound in fine metals.

How such steels affect your pocketbook is obvious.

1. They are light in weight and hence give more mileage on a gallon of gasoline.

2. As they are fine steels they give long and uninterrupted wear. Which are but two of many reasons for that definite tendency of world-wide friendship towards Maxwell.

In six years nearly 400,000 have found their answer to the motor car question in a Maxwell.

This year 100,000 Maxwells are being produced. This will supply but 60% of the demand.

## TRAPPING IS PROFITABLE

**Muskrat Pelts Plentiful in Ohio Marsh Lands**

(By United Press.)

Port Clinton, Ohio., Mar. 23—The farmers of Ottawa County have found the trapping of muskrats a profitable industry this winter. For dealers say that perhaps a quarter of a million dollars will be added to their bank accounts as a result of their efforts.

The muskrats are plentiful in the marsh lands along the south shore of Lake Erie. Prices paid for the pelts this year exceed by far those paid in previous years.

Muskrat pelts when dyed and treated are sold by many retailers as an inferior grade of seal, according to fur dealers.

## LAWYERS CONFER WITH COMMISSION

Railroads and Shippers Have Hearing Before Public Service Commission About Esch-Cummins Bill

OVER 2 IMPORTANT QUESTIONS

Both of Which Deal With The Advantages of an Increased Freight Rate That is Asked For

Washington, Mar. 23—Five hundred lawyers representing railroads and shippers from all parts of the country crowded the inter-state commerce commission hearing room here Monday.

The opening of the hearing before the commission was in connection with the Esch-Cummins bill. Two questions were before the commission today.

The first question was to determine the method to be used in fixing a temporary valuation of the railroads until the formal valuation will comply by the commission two years from now.

The second was whether the valuation should be as a whole for all railroads or by groups of roads.

Both the questions have important effects in determining the advantages in freight rates. Under the Esch-Cummins law, rates must be fixed high enough to insure a return of 5 1/2 per cent.

The hearings are expected to last several days. Another meeting which may have a very large influence on the railroads' return started late Monday when railroad workers and managers got together to confer on demands for wage increases totaling approximately one billion dollars a year. Higher wages, railroad men say, will mean higher returns.

The demands of the union men are the same as those presented one year ago to the railroad administration but which the union leaders decided not to press at that time at the request of President Wilson.

# Women! Get These Surprising Cooking Facts!

Here are some facts about the "Red Star" oil range, which if used, will put your cooking problems on the most efficient and economical basis possible.

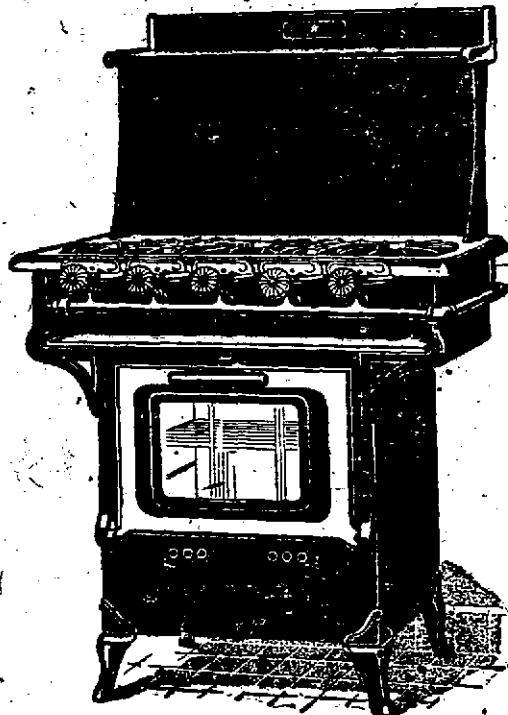

The "Red Star" is entirely different from ordinary oil burning stoves. It is really a gas range. It generates its own gas from any grade of kerosene, gasoline or distillate. The patented eight and one-half pound double ring flame burner vaporizes all of the heat units of the fuel and utilizes the energy that is usually wasted in odor and smoke. The heavy, iron burner becomes red hot and concentrates an intense heat directly under the utensil. It operates entirely without wicks or asbestos rings.

No Wicks! No Smoke!  
No Smell! No Trouble!

Repeated official tests have proved that the "Red Star" is the quickest, most dependable and economical oil stove on the market.

It is designed and works like a city gas stove. A beautiful stove in any kitchen. Substantially built, easy to clean and keep clean.

## HONEST ADVERTISING FOR SOUTH AMERICA

Pan American Conference Sees Value of Truth in Advertising in U. S. and Will Help Spread it

INDIANAPOLIS JUNE 6-10.

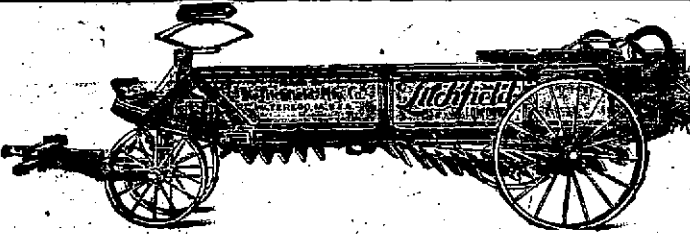

New York City, Mar. 23—Inspired by the progress the American business world has made in the elimination of dishonest advertising through the efforts of the National Vigilance Committee of the Associated Advertising Clubs of the World and co-operating organizations, Latin-Americans, who have taken a keen interest in American advertising methods, have determined to make advertising equally trustworthy in South America.

John Barrett, head of the Pan-American Conference—an organization formed last September at the New Orleans Convention of the Associated Advertising Clubs, to further the interests of the United States and Latin-Americans in advertising and merchandising—has been authorized to appoint an executive committee of nine members, representing the trade and publishing interests of Latin-American countries, and this committee will begin at once to enforce truth-in-advertising principles in Latin-America, as well as that which is directed to Latin-American trade.

Cuba, Brazil, Peru, the Argentine and Mexico were represented at the meeting of the Conference, and the representatives intend to urge business and advertising men from their countries to attend the world advertising convention at Indianapolis, June 6 to 10. The Pan-American Conference will conduct sessions at Indianapolis, as a division of the Associated Advertising Clubs, at the same time.

### RESTFUL RESULTS FOR MEN

Only a person who has experienced that awful "all night" cough that sometimes follows influenza can appreciate what a good night's sleep can be. Mrs. Annie Davison, 2080 Myrtle St., Long Beach, Cal., writes: "The result of using Foley's Honey and Tar was a restful one for me." Foley's Honey and Tar checks harsh, racking coughs; eases wheezy breathing; stops tickling in throat; covers raw, irritated surfaces with a soothing, healing coating. F. B. Johnson—(Adv.)

## CLAIM A TITLE AND YOU CAN HAVE IT

Woods are Full of "A. E. F. Champions", "Interallied Champions", "French Champions" Etc.

WORLD'S TITLE ESTABLISHED.

The Featherweight, Lightweight and Middleweight Divisions Declared Championless

By HENRY L. FARRELL  
(U. S. Staff Correspondent.)

New York, Mar. 22.—Claim a title and you can have it.

That seems to be the theory of modern fighters and wrestlers.

It's a cinch to become a champion when acquisition of the crown entails no more effort than the wind of a few words from some manager.

The woods are full of "A. E. F. champions", "Inter-Allied champions", "French champions", "English champions", etc.

The records do not bear out the claims of most of the assuming champions and near champions.

Holders of the world's title are established. The International Boxing Union has recognized as legitimate the crowns held by Jack Dempsey, heavyweight; Mike O'Down, terweight; Benny Leonard, light-middleweight; Jack Britton, welterweight; Benny Leonard, lightweight; Johnny Kilbane, featherweight; Pete Herman, bantamweight; and Jimmy Wilde, flyweight. The title of light heavy weight champion was declared vacant.

The European champions recognized by the I. B. U. are: Jimmy Wilde, featherweight; Charles Ledoux, France, bantamweight; Albert Badoud, France, welterweight; and George Carpentier, light heavy-weight and heavyweight. The featherweight, lightweight and middleweight divisions were declared championless.

Most of the haze surrounds the claimants of the "Inter-Allied" championship titles. The athletic committee of the United States army, headed by Col. Wm. C. Johnson under whose supervision the "military olympic" was held, recognizes the following "Inter-Allied" champions:

Bantamweight, "Digger" Evans, of Australia; featherweight, Louis De Panthien, France; lightweight, Benny McNeil of Philadelphia; welterweight, Joe Arwood Canada; middleweight, Eddie Eagen, now captain of the Yale boxing team and the amateur champion of that division; light heavyweight, Spalla, of Italy; heavyweight Bob Martin, of Akron.

The A. E. F. champions recognized by the army athletic board are bantamweight, Johnny "Babe" Asher, of St. Louis; featherweight Johnny Fundy, of Pittsburgh; welterweight, Billy Kleck of New Orleans; middleweight, Jackie Clark of Allentown, Pa.; lightweight, Leo Patterson, Joplin, Mo.; light heavyweight, Gene Tunney, of New York City; heavyweight, Bob Martin, of Akron.

The Inter-Allied (patch-as-catch can) wrestling champions are American in every division except the heavyweight. They are: bantamweight, Slinger; featherweight, Littlejaunt; lightweight, Pete Metropolis; welterweight, Cal Farley; middleweight, Prelim; light heavyweight, Parcaut; and heavyweight, Sakador of France.

The A. E. F. wrestling champions are: heavyweight, Charlie Rubel, Audobon, Iowa; light heavyweight, Ralph Parcaut, of Royal, Idaho; middleweight, Cal Farley, Minneapolis; welterweight, Pete Metropolis, Gary, Ind.; lightweight Johnny Vores Chicago; featherweight, Louis Frazer, Pittsburgh; and bantamweight, Oscar Hausen, Chicago.

## HOOSIERS URGED TO PLANT WALNUT TREES

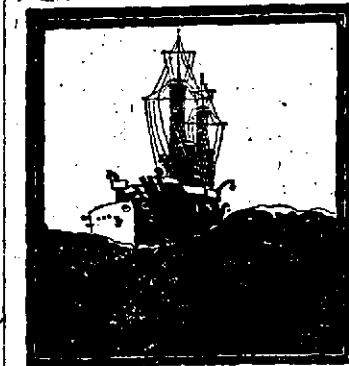

Demand For Both The Timber and Fruit Causes High Prices and a Scarcity of Trees

### TREE GROWS FROM NUTS

Indianapolis, Mar. 22.—With walnuts selling at fifteen cents a pound and walnut lumber ranging from \$125 to \$140 per thousand feet in the markets, the state department of conservation today advised Hoosiers to plant walnut trees.

"It is easy to get them started," according to Charles C. Deam, state forester. "All you have to do is to bury the nuts in the ground a few inches deep where you wish the trees to grow," he said. "If there is danger of the nuts being dug up by mice or squirrels it is best to bury them in sand in a box and about April 25 transfer the nuts to the planting site."

Walnut trees grow rapidly, according to Deam, and have no insect enemies, except the caterpillar which defoliates the branches and which are easily destroyed.

## CHINESE RESENT A BRITISH TAX

They Say International Levy is Unjust Without Their Representation—Shop Keepers Strike

IT IS ALMOST A CIVIL WAR.

Elements Dislike The Idea of Bearing All of The Burdens of The Communities.

Shanghai, Feb. 28 (By Mail)—While the Chinese nation is divided into two armed camps with president Hsu Shih-shang at Peking ruling—more or less—the Northern districts, and a national parliamentary legislature sitting at Canton and dominating the Southern provinces, a miniature civil war is being waged in Shanghai between the Chinese taxpayers and the British rulers of the International Settlement.

While the armies of North and South China refuse to spill any blood and form mutual admiration societies every time they are drawn up in battle array, some real fighting and a number of deaths have resulted from the clash between the natives and the police representing the foreigners in this city.

Applications for representation of the Chinese, who claim to bear 70 per cent of the upkeep of the community, on the municipal council followed rioting and death that was the outgrowth of the Shantung situation and an uprising in protest by the students' unions. The applications were decided against by the municipal council, consisting of six British, two Americans and one Japanese, several weeks before the matter was made public. Chinese merchants and political leaders got wind of the secret decision of the council and forced an acknowledgment that the ruling had been made.

Then the shopkeepers quietly closed their stores and refused to pay their taxes. About 50 of them were arrested and went to prison while the police of the revenue department seized goods to meet the tax levy. When they appeared for trial before British Assessor Grant Jones he told the merchants they were "rogues".

The strike of the shopkeepers stirred the Municipal Council into action and negotiations were begun with Dr. Fong and other leaders, representing 50 guilds with a membership of millions of business men. As a result the strike was called off and it was agreed that the taxes should be paid under protest pending a conference and ballot to be taken at the annual meeting of the taxpayers to be held in April.

### Shape of Shells.

"Modern long-range shells are cigar-shaped. They taper both at the front and at the rear. This tapering of the rear end is called 'boat-tailing.' You have noticed that racing automobiles have torpedo-shaped sterns. A square-tailed shell or automobile is actually held back at high speeds because of the vacuum created behind it by the velocity of its movement. Tapering the tail leads the air gently and easily into the hole that the shell or the racing car bores in the atmosphere and thus lessens vacuum's impeding grip on the flying object."—Everybody's Magazine.

### House Peters at Mystic

"You Never Know Your Luck," starring House Peters, which is at the Mystic today, tells of Kerry, a ranch foreman in the Canadian northwest. Kerry is a mysterious individual and little is known of his past. However, he is popular with the people of that district. Kerry has an option on some valuable land which Burlingame, a crooked lawyer wants to obtain. Burlingame tries to rid himself of Kerry by assassination but fails. One of his tools does succeed in killing Kerry's pal and is arrested. During the trial Burlingame cross-examines Kerry and discovers that he is the son of a baronet, and has a wife in England whom he has not written to in five years. Despite Burlingame's efforts to discredit Kerry, the jury regards it as irrelevant, and the prisoner is convicted.

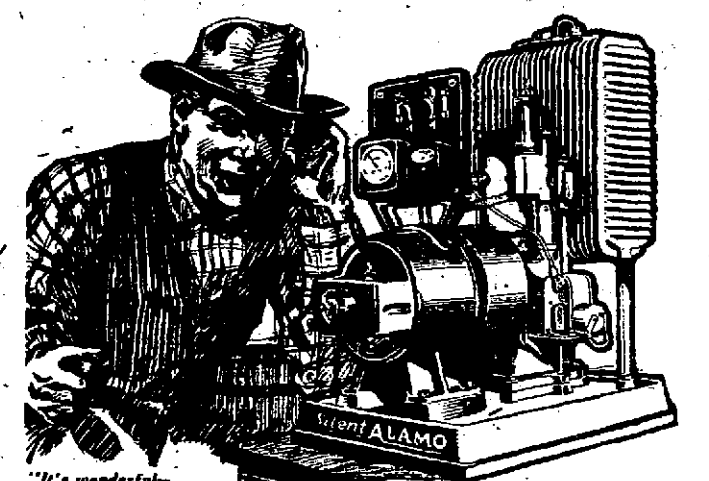

Foiled the first time Burlingame tries again. This time with more success. He succeeds in wounding Kerry with a revolver but not seriously. While convalescing Kerry tells the daughter of his landlady that he wasted his fortune in gambling and was too proud to live on his wife's money. He has received one letter from her which he has not the courage to open and read. Kitty sends Kerry's address to his wife and she comes to visit him. Discovering that he is in need of money she opens the letter that she wrote him so many years before, and inserting a new note places \$20,000 in the envelope. She tells Kerry that the letter she sent him contains money that he won in bets and that he had forgotten about. With this money Kerry is able to protect his option and eventually clears a fortune on his deal. Then with his self respect come back to him he and his wife are re-united.

The offering for tomorrow is Madeline Travers in "The Hell Ship" and Charles Chaplin in "Before and After."

### Tastes and Odors of Wood.

Though most native American woods are without pronounced odor or taste American Forestry notes that woods of the laurel family, such as sassafras and California laurel or myrtle, have a distinct spicy odor and taste. Port Oxford Cedar has a very spicy, resinous odor; other cedars, especially pencil cedar or juniper, a more aromatic odor. Hemlock has a slightly sour odor, while cypress is somewhat tannic.

## Electric Light and Power For the Farm

Install the Celebrated

## Silent ALAMO

Electric Light and Power Plant

Selecting an electric light and power plant is a serious proposition. You should know how to do it wisely. You know, for instance, that the engine is the most vital part of any plant and that severe vibration which racks the engine to pieces is a menace always to be avoided.

### No Vibration—No Noise

The Silent Alamo has a noiseless sleeve valve motor. It is the most efficient and quietest running type of motor ever built. In addition, there is no dangerous vibration in the Silent Alamo. Thus the efficiency of the motor is maintained, and steady, reliable service assured.

See a demonstration of this remarkable plant now. Learn for yourself why it is preferred everywhere. If you cannot come in today, phone or write for a representative.

NOTICE TO NON-RESIDENTS.

State of Indiana, Rush County, ss: Rush Circuit Court, February Term, 1920.

Frank M. Hudelson administrator, with the will annexed, of the estate of Andrew B. English deceased, vs. Minnie English et al.

No. 2030.  
Now comes the plaintiff, by Samuel L. Trabue, attorney, and files his complaint herein to construe the will of Andrew B. English deceased, together with an affidavit that the defendants, Minnie English, Eugene English, Hugh English, James P. English, Alonzo English, Willie W. English, Carrie L. English, Stella W. English, Ollie Chandler, Belle Brown, Emma Mahew, Esther Hudelson, Ruth Hudelson, Ella K. Marx, well are not residents of the state of Indiana. That the residence of the defendants, Lillian, Sears, Ada, Shepherd, Aubert English, Fred English (son of Hugh L. English), Ralie Wilson, Leslie Hoover, Mollie English, Charles English, Lottie English, Fred English (son of James A. English), are unknown, and that diligent inquiry has been made to ascertain the residence of said defendants, but that said inquiry has not disclosed the residence of said defendants.

Notice is therefore hereby given said defendants, that unless they do and appear on the first day of the next term of the Rush Circuit Court to be holden on the first Monday of May A.D. 1920, at the Court House in Rushville, in said County and State, and answer or demur to said complaint, the same will be heard and determined in their absence.

In witness whereof, I have hereunto set my hand, and affixed the seal of said Court, at Rushville, Indiana, this 9th day of March, A. D. 1920.

LORREN MARTIN,  
Clerk of the Rush Circuit Court.

**CATARRH AND COLDS**

Nonexpensive—Cut This Out.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Ask your druggist for three quarters of an ounce of Mentholized Arcine and pour it into a pint bottle, then fill the bottle with water that has been boiled. Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

WAS NERVOUS AND RUN DOWN

RESTORED TO NORMAL HEALTH BY BIO-FEREN

"I feel I owe you people a world of gratitude for the benefit I have received in using your wonderful remedy—Bio-feren Tablets, which have completely restored me to normal conditions," says Joseph E. Webb of Muncie, Indiana.

Bio-feren is without doubt the grandest and quickest remedy for nervous, run down, weak, enemic men and women ever offered direct through the druggists and is not at all expensive.

Take two after each meal and one at bed time, and after seven days take one after each meal and one at bed time until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel ambitious, more vigorous and keen minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

All druggists in this city and vicinity have a supply on hand, or can easily get it for you.

Save a day for seven days. Wonderful results.

Czli Upon Him For Explanation  
of Trutona

Indianapolis, Ind., Mar. 22.—Mr. John S. Sherman, of 950 North Pennsylvania Street, for twenty-three years connected with the U.S. Civil Service and who, in that time, has made hundreds of friends makes the following testimony regarding the remarkable relief that he gained through Trutona. Numbers will be glad to hear and learn of his experience.

"I have been troubled with catarrh of the stomach for several years," he said recently while speaking of his relief. "My liver was in bad condition, too. In fact my whole system was generally run down. I've never been much inclined to take medicines but I tried several different kinds, anyway. They didn't help me much and finally I stopped taking medicines altogether. Later, though, I became so nervous and restless that I knew I'd come down sick if I didn't do something.

"In looking over the paper one day I read about Trutona. I decided to try a bottle because it seemed to be a good medicine. Only a few days after starting I began to notice the good effects. Now I know that Trutona has put my stomach into good condition. My liver is no longer sluggish and inactive either. If anyone is still skeptical about Trutona they can call me up or they can come to my house and I will be glad to explain to them the good Trutona did me."

Trutona is now being introduced and explained in Rushville at Hargrave & Mullins Drug Store.—Adv.

## TAMPICO LIVES UP TO REPUTATION

Visitor Comes to This City Full of  
Tales About The Operations  
of Bandits

BANDITS JUST TRADESMEN

Tampico Admits She is One of High-  
est Priced Cities in the World  
Today

By RALPH H. TURNER  
(U. P. Staff Correspondent.)

Tampico, Mar. 11. (By Mail).—The city of Tampico lives oil, thinks oil and—literally—breathes oil, but such a petroliferous atmosphere is not necessary to inform the new arrival that he is in an oil town, or a boom town. He learns that the first time he makes an expenditure.

The visitor comes to Tampico full of tales about the bandit operations in this vicinity. He hasn't been here long, however, before he begins to feel that the bold dark highway-men out in the wilds must be poor pickers compared to the Jesse James outfit which confronts him in the form of tradesmen, cafe proprietors and hotel men whose methods, perhaps, are less dangerous but certainly as effective.

It's a common saying throughout Mexico that if a salaried man is contemplating a move to Tampico from any other part of the republic, the human instinct of self-preservation demands that he receive the same number of American dollars, as stipend, that he has been receiving previously in Mexican pesos. And the reasoning doesn't seem to be far from wrong when it is considered that prices are about the same here in dollars as they are elsewhere in pesos.

This method of extortion is made doubly simple by the fact that the dollar possesses just twice the value of the peso, being accepted at a one to two ratio, and by the additional phenomenon that Tampico knows only dollars. It's a strange financial fact that American money circulates here almost exclusively, due both to extent of American "penetration" and the scarcity of Mexican currency.

Old American greenbacks, tattered and patched together with court plaster, are legal tender in the market, the club or the office, while rugged Mexican newboys, developing the gambling instinct at an ear-

ly age, can be seen tossing American nickels at a line drawn on the sidewalk. Only at the postoffice, the customs house and other governmental agencies are pesos required in payment.

Tampico admits, not without a show of pride, that she is one of the highest priced cities in the world today. The single fact of being an oil town would entitle her to that distinction, but in addition Tampico is a foreign community, where food and other necessities for the American and British residents must largely be imported from the United States.

The oil companies have recognized the abnormal conditions, not only by high salaries, but by paying their employees' expenses, including, "board and room", whether the latter signifies life in a hotel or in one of the residences that form a part of the foreign colony. The continuous growth of the American and British population has created a demand for houses, apartments and hotel accommodations that far exceeds the supply, with the result that many of the companies have undertaken to provide quarters for their employees, either by new construction or the remodeling of old buildings.

"Anyone will tell you, mournfully, of Tampico's strain on the pocket-book.

"It costs \$20 American money a day for a man who lives in the hotel," bemoaned an American bachelor. There's only one strictly modern hotel. "This doesn't include any clothing and such," he continued, "just room, food, laundry, a shoe shine now and then, perhaps a cocktail before dinner and bottled water instead of the local product that may carry disease."

And then the housewives recount how native servants, formerly employed for \$5 and \$7 a month, now demand \$15 and \$20. Chinese cooks, who prevail in the best kitchens, are receiving from \$50 to \$65 a month, a 200 percent increase over the old days. These wages may seem low, to the American woman, who can't get a cook at any price, but in Mexico the scale is different.

But, then, while Tampico is spending so carelessly, Tampico is a great money-maker. It's the story of the oil boom—and no one seems to worry.

## SOUTH DAKOTA AT POLLS TODAY

State Was Nominating Presidential  
Vice-Presidential, Congressional,  
and State Candidates

THREE TICKETS IN FIELD.

State Law is Different Requiring  
Candidates to Debate Issue Be-  
fore Primary.

Pierre, S. D., Mar. 23.—South Dakota voters today applied their first acid test to the 1920 presidential campaign.

With three tickets in the field the state was nominating presidential, vice-presidential, congressional and state candidates who will make the race in the general election in November.

Four Republicans have put up a strong fight for South Dakota's support. They are Maj. Gen. Leonard Wool, Gov. Frank O. Lowden of Illinois, Senator Hiram Johnson of California and Senator Miles Ponder of Washington.

The Democrats are on the ballots today—James W. Gerard, former ambassador to Germany, and James O. Murre of Illinois.

The Nonpartisan League—operating as a separate political party in this state—nominated Gov. Lynn F. Frazier of North Dakota for president at the state convention, but since Gov. Frazier has not announced himself the league voters today were expected to throw their support largely to Johnson, since the Republican-Non-partisan League organization of North Dakota has endorsed Johnson.

The South Dakota primary law is different from that of any other state in the union. It requires the candidates to debate issues within the state before the primary and before the general elections. The law—known as the Richards' law—affects a national election for the first time this year, and politicians are not yet fully acquainted with its provisions. For this reason the full letter of the law has not been complied with in regard to debates.

### TWO GET LIFE LICENSES

Two Rush county school teachers have been granted life state licenses by the state board of education, according to a list printed in the Indianapolis star. The local teachers receiving the licenses were Miss Georgia Morris, teacher of grades 4B and 4A at the Haven's school, and Winifred E. Wagoner, principal of the Posey township consolidated school at Arlington.

# Ford

THE UNIVERSAL CAR

The Garden farmer will find the Ford Model T One Ton Truck an especially valuable factor in his business because of the flexibility as well as the reliability of the service given by this splendid truck. The worm-drive of manganese bronze carries all the power of the motor to driving the Truck, and there are combined in larger and heavier form all the elements which have made the Ford Model T Car the greatest motor car in the world in point of service. The Ford Truck with its worm-drive is most economical in operation and maintenance. There is very little, if anything, to get out of order at any time; there is the simplicity in control; there is the convenience in the flexibility of the car, it will turn in a circle of forty-eight feet; it accommodates itself to narrow alleys, and it "stands the gaff" of hard work day after day, and month after month, to the great satisfaction of the owner. There is hardly a line of business activity where the Ford One Ton Truck is not really a necessity. Come in and talk it over.

In the treatment and cure "without the use of the knife" of Piles, Fistula, Fissure, Prostatic Enlargement, Rupture, Chronic Diseases of the Kidneys, Bladder, Obstruction, Rheumatism, Stomach, Bowels and all other curable Chronic Diseases.

No Matter How Obsolete or How Contracted—Cured

When I say I can cure you, you can depend upon it, for I know from the successful results in thousands of similar cases to yours, just what I can accomplish. Grateful patients treated by me are constantly recommending others, and this is why I possess such a large practice.

Men! Women! If you do less than you should, on your farm, at your desk, or in your shop, you are in some way weak. If you can't accomplish all that you expect or hope for, you are the silent sufferer from some hidden disease that affects one or more of the important nerve centers of the body. These neglected or unknown conditions, are usually diseases of the Pelvic System, which reflexly act upon the organs of Elimination, digestion and the nervous system, which in turn has its influence on the brain. I have made a special study of the Nervous System and have perfected methods that will cure where ordinary methods have failed. I will give you a searching and thorough examination FREE, thus determining the exact location of your trouble.

BEAR IN MIND that I have in Indianapolis one of the most modern and thoroughly equipped offices in the state with a Specialist in charge who is ripe in years of experience, rich and mature in learning in his chosen work. That neither one of us will promise you more than we can give, and should you be unable to see me on date specified above, you can write, or better still, call at my home office, 314 Traction Terminal Building, Indianapolis.

I do not use the knife, neither do I do any cutting.
